LEAN 5S WORKPLACE ORGANIZATION

Learn the 5S workplace organization method

4 Hours Classroom Training | **12 hours** 5S Implementation

Maintain a competitive advantage in productivity, cost, and safety.

The 5S methodology organizes a workspace to maximize efficiency and effectiveness by identifying and storing items used, maintaining the area and items, and sustaining the new organizational system. 5S is also commonly known as 5S+1 or 6S to accommodate safety as an essential element to the method.

In this training, participants will experience the intent and benefit of each of the "S" factors in delivery and execution. **Each factor will demonstrate real-world examples in both large enterprises and individual workstations.**

WHAT TO EXPECT

- Understand business drivers to support 5S model for continuous improvement
- Engage in each phase of the 5S model to develop alignment for personal workstation enhancements
- Develop a comprehensive plan to implement the 5S program
- Establish an audit process to ensure program compliance and improvement

**Maximize
efficiency in
your operation.**

**Book an
engagement
today!**

WHAT YOU GAIN

- Employees can take direct ownership for area improvements
- Business gains increased productivity, safety, and employee engagement
- Establishes a continuous improvement methodology to enhance the culture
