# STRATEGY TO ACTION

16  
HOURS

ON SITE

Add Project Systems to Your Strategy to Achieve Positive Results.

Most strategic plans fall flat because they aren't supported by a project management system. **Strategy to Action is a simple step-by-step method that operationalizes a strategy to:**

- Drive results by developing actionable strategic objectives with a detailed project plan.
- Set up the project plan and define the strategic objectives individual roles must accomplish.
- Implement "The Strategy Forum," a leadership meeting that ensures plans are executed and results are delivered.

## WHAT WE DELIVER

- A suite of customized project management tools to drive success.
- Defined metrics for all strategy objectives and sub-goals.
- Performance targets to celebrate.

## WHAT YOU GAIN

- A process to implement an executable plan for leadership with owners and tools to ensure success.
- An 18 to 36-month detailed, actionable, and measurable project plan that the appropriate owners and teams can plan, manage, and execute.
