PERFORMANCE METRICS

8 Hour Interactive Workshop with Custom Metrics Creation

WHO SHOULD ATTEND: Leaders/Owners, Managers, Supervisors/Leads

Metrics are more than numbers—they are the foundation for driving performance, aligning teams, and making better business decisions. This workshop helps your team build meaningful metrics that connect directly to your organization's goals and drive real results.

PROGRAM OBJECTIVES

- Establish metrics aligned with the organization's vision, mission, and goals
- Set up and track effective metrics that make visible problems and constraints
- Recognize the connection between measurement and behavior
- Understand the role of measurement versus management
- Use metrics as a tool for feedback.

BENEFITS

- Drive performance
- Provide focus for an organization, department, or employee
- Drive the strategy and direction of the organization
- Help your staff make good decisions
- Improve your customers' experience
- Change and evolve with the organization

Planning Information: This one-day workshop combines classroom concepts with creation of metrics using company information and needs. Prior to the training, there will be a formal prep meeting with Utah-MEP to discuss issues, set goals, determine participants, and plan for the workshop. The workshop can accommodate from 5 to 20 students.
